

HOW TO DONATE TO THE FOUNDATION FOR CHILDREN

In 1995 the Arizona Funeral Directors Association established the "Foundation for Children." This 501(c)3 non-profit organization was designed specifically to raise funds, within funeral service and local communities for the continuing well-being of children.

In 1998 the *School Nurse Fund* was developed and school nurses were chosen to be the recipients of these monies on behalf of children in their schools. Our combined efforts enable children with immediate health needs to be identified and assisted promptly.

YOU CAN HELP

We celebrate school nurses and commend them for the work they do. Without their expertise this program could not be effective in identifying crisis situations, nor could the voice of a young child's plea be heard.

In order for the Foundation to continue to make rapid and profound impact on the lives of Arizona school children, we need your help.

The Foundation for Children has a number of fund raising events each year, including golf outings, silent auctions and more. It is the goal of Funeral Directors to raise money and create an awareness that these much needed funds are available.

Your participation in these events help us help these children. Your donations help us as well. The Foundation for Children is the philanthropic arm of the funeral service professional association and we appreciate all you can do.
